

Solar Powered INTEGRA® Roof Windows www.velux.ie/integra

Pine finish (GGL)

- All the same features as INTEGRA® electric roof windows but powered by the sun – photovoltaic solar cell on the external window frame charges the operating motor. This requires direct exposure to sunlight.
- No need to plug into a power supply, making installation even quicker and easier.

io homecontrol® provides advanced and secure radio technology that is easy to install. io-homecontrol® labelled products communicate with each other, improving comfort, security and energy savings.
